

THE AI-TOOL AN INSTRUMENT OF EFFECTIVE MEDIA SUPERVISION

DR. TOBIAS SCHMID, DIRECTOR MEDIA AUTHORITY OF NORTH RHINE-WESTPHALIA (LFM NRW) - DE

Agenda

- 1. What did we want?
- 2. What did we do?
- 3. What happens next?

WHAT DID WE WANT?

EFFECTIVE MEDIA SUPERVISION

Effective and modern media supervision on the internet is only possible if we take into account the possibilities of digitalisation in the performance of our duties and use them to our benefit.

EFFECTIVE MEDIA SUPERVISION

Supporting the monitoring process in its research on the Internet

Automatic research on the web for potential violations of the law, processing of automatically generated and pre-categorised findings by the monitoring team.

Employee protection

No immediate reception of incriminating content

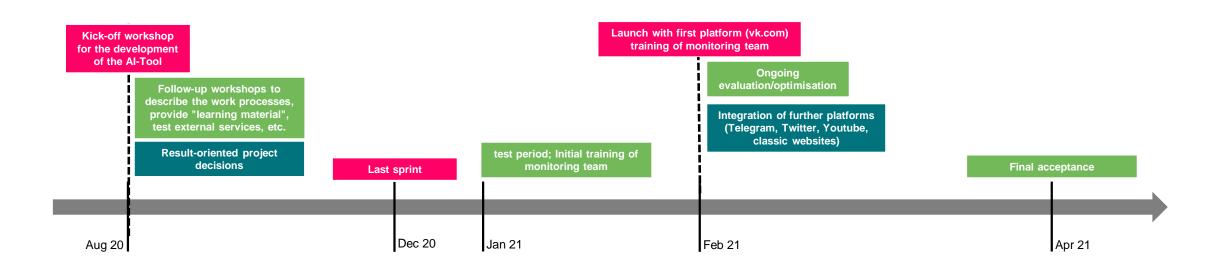

WHAT DID WE DO?

RESEARCH AND DEVELOPMENT

► Condat AG, based in Berlin, won the contract in a negotiated procedure with a prior public tender

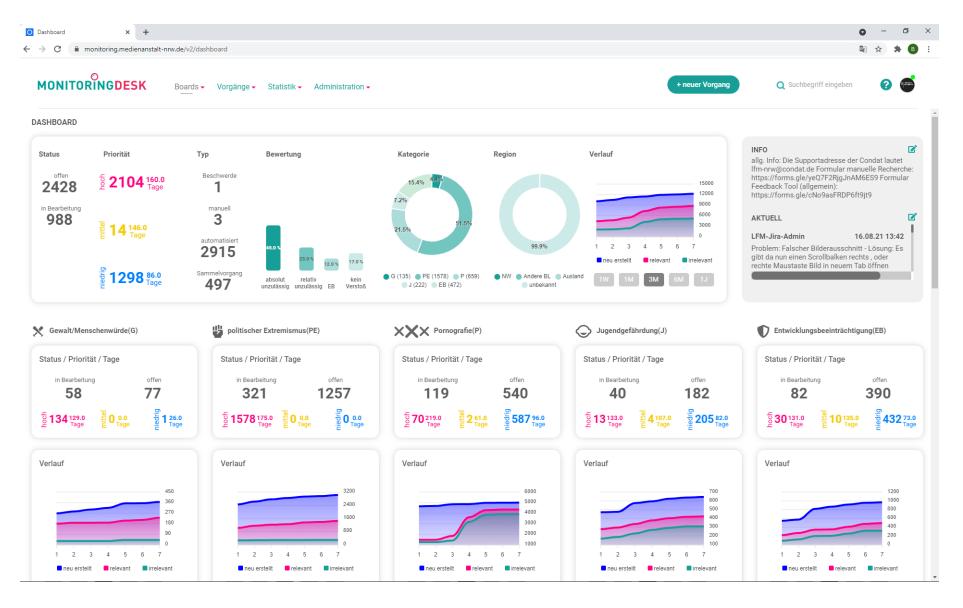

THIS IS WHAT IT LOOKS LIKE

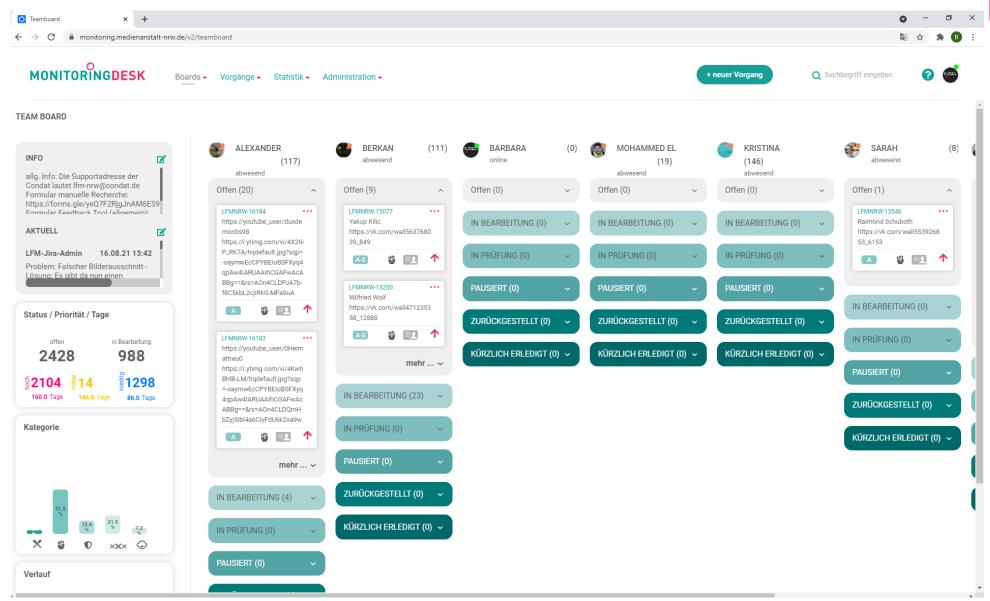

THE MONITORING DESK

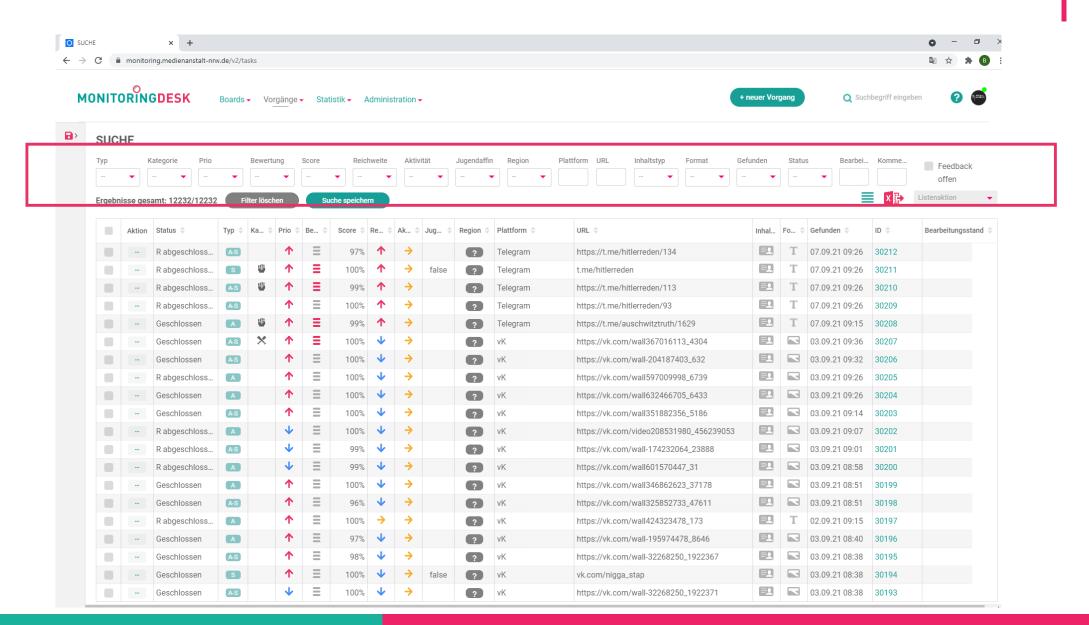

THE TEAMBOARD

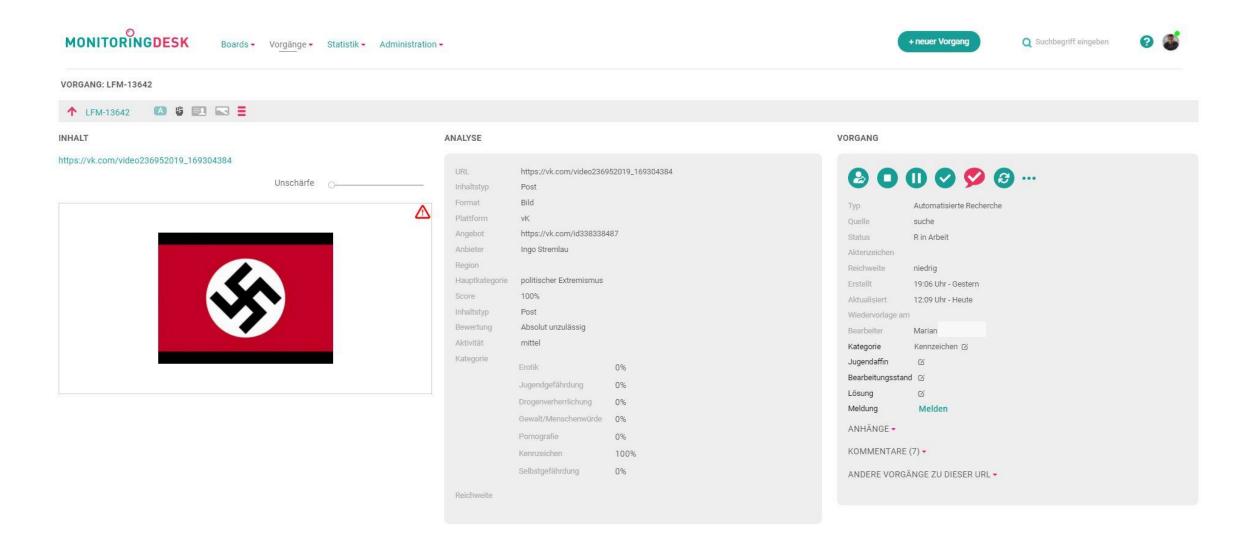

THE MONITORING DESK

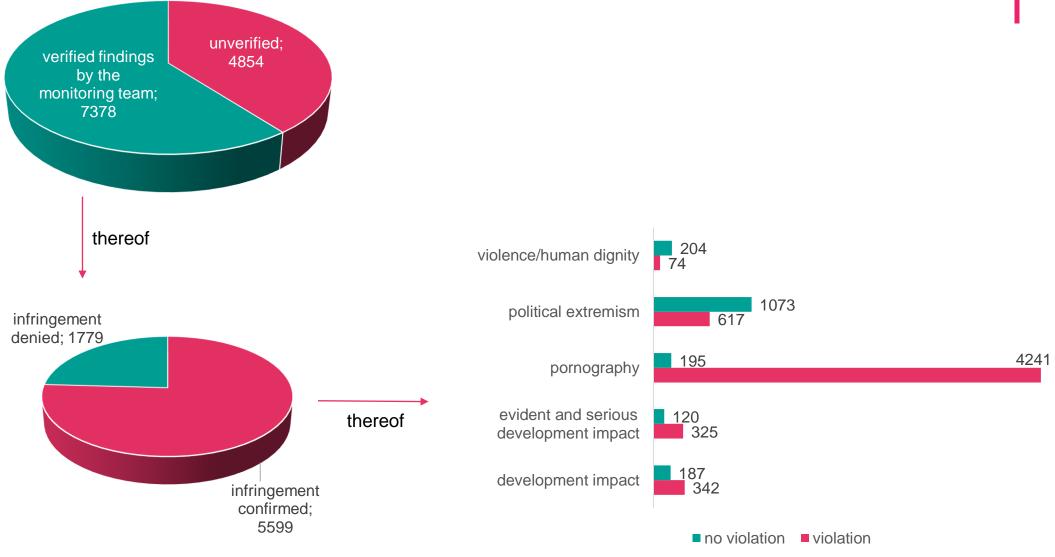

PROCESS - POSITIVE FINDING

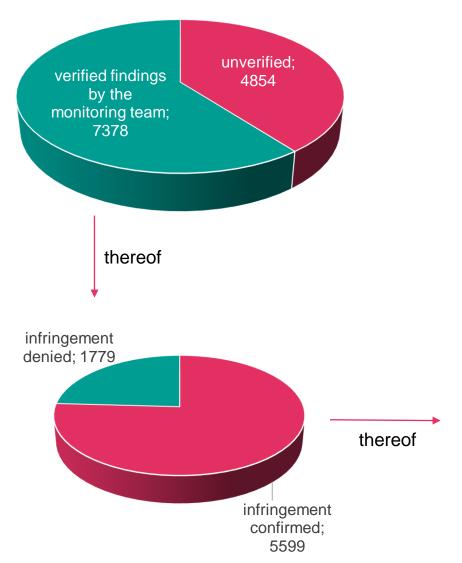

March – September 2021: 12,232 potential infringements

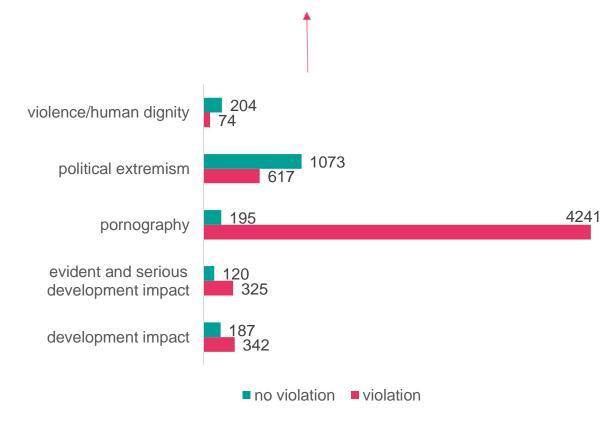

March – September 2021: 12,232 potential infringements

- Conversion rate for human dignity and political extremism: 35 %
- Conversion rate for pornography and serious development impact: 94 %

WHAT HAPPENS NEXT?

FURTHER DEVELOPMENT

- Continuous improvements based on practical use
- Automated creation of criminal reports for state procedutors
- Link to the flagging option from the user interface
- Integration of other platforms (TikTok, BitChute)
- Mapping of further procedural steps of supervision in the tool (notification; hearing, ...)

THANK YOU FOR YOUR ATTENTION
